# Devoir Surveillé n°1

#### 1. HTML CODE:

#### 2. CSS CODE:

```
body {
    font-family: Arial, sans-serif;
    text-align: center;
#quiz-container {
    max-width: 600px;
    margin: 0 auto;
    padding: 20px;
    border: 1px solid #ccc;
    border-radius: 5px;
button {
    padding: 10px 20px;
    background-color: #007bff;
    color: #fff;
    border: none;
    border-radius: 5px;
    cursor: pointer;
button:hover {
```

```
background-color: #0056b3;
}
#result {
    margin-top: 20px;
    font-weight: bold;
}
.passed {
    color: green;
}
.failed {
    color: red;
}
```

### 3. JavaScript CODE:

```

### 4. LES CAPTURES D'ECRAN:

### Screenshot of an Interactive Quiz Results Page.:

#### Scenario 1:

## Quiz interactif

Quelle propriété CSS est utilisée pour afficher un élément en ligne avec les autres éléments ?

display: inline; position: inline; align: inline; layout:inline;

You have mistakes. Score: 7/20

#### Mistakes:

You chose the wrong choice for Question 4

You chose the wrong choice for Question 5

You chose the wrong choice for Question 7

You chose the wrong choice for Question 8

You chose the wrong choice for Question 9

You chose the wrong choice for Question 10

You chose the wrong choice for Question 11

You chose the wrong choice for Question 12 You chose the wrong choice for Question 13

You chose the wrong choice for Question 14

You chose the wrong choice for Question 15

You chose the wrong choice for Question 17

You chose the wrong choice for Question 20

#### Scenario2:

#### Quiz interactif

Quelle propriété CSS est utilisée pour afficher un élément en ligne avec les autres éléments ?

display: inline; position: inline; align: inline; layout:inline;

You passed! Score: 20/20
